

Enhance your professional development with Learning Pathways

Research in Practice Learning Pathways guide you through key topics with summaries, tools, case studies and reflective questions to build your skills and knowledge.

Learning Pathways are self-directed and are designed to be flexible, allowing you to complete at your own pace.

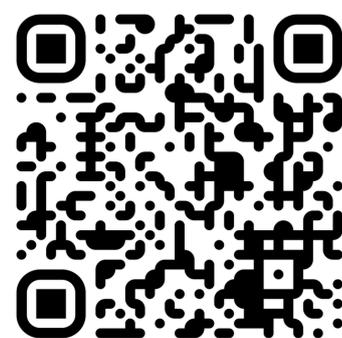

Explore Research in Practice Learning Pathways

Build your understanding of a key topic, learn how to use tools and approaches, and build skills to support your practice.

‘The content has been useful to foster critical reflection within supervision sessions. Working through sessions and then applying the learning in the supervision itself. Not in a chronological, ‘programme’ order but more bitesize learning.’
