research in practice

Evidence-informed events to support learning and development

Research in Practice runs a popular programme of national conferences, workshops and online events to support learning and development.

Our events bring together participants from across the Research in Practice network to learn from experts and share knowledge with peers.
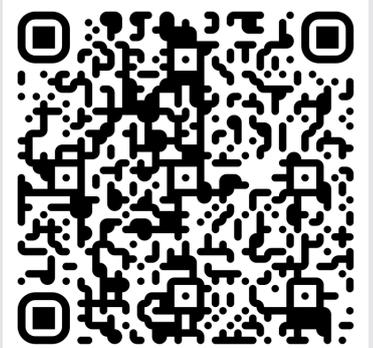

Explore Research in Practice programme of events

Learning activities include webinars, online workshops, knowledge exchange sessions and national conferences.

'Facilitator was fantastic! So engaging and structured perfectly I enjoyed the interactivity of the session. It provided a lot of time to reflect. Breakout groups were effective.'

Member engagement programme

Our membership engagement programme aims to support evidence-informed practice and build active use of Research in Practice resources.

These include:

- How to use Research in Practice – regular online sessions that guide users to get the most out of Research in Practice.
- Practice Pointers - summarising key concepts of a core topic, highlighting insights from Research in Practice resources.
